

## CANADIAN LAKEHEAD WIRELESS EXPERIMENTERS

Regular Meeting, November 14th, 1934

A regular dinner meeting of the Canadian Lakehead Wireless Experimenters was held on November 14th in the Y.M.C.A. Fort William.

Following an enjoyable dinner, the President, P.J. O'Shea took the chair and read a wire from Joe Sky of the executive who is with the Ontario Forestry Board in Sioux Lookout. The following visitors were then introduced: Austin Reesor, J. Murie, B.W. Davidson, Brian Hancock and Jas, Shepherd.

M. Cavaney then told the meeting about a new system he had tried out for finding out if anybody is calling him by specifying which part of the band he will listen to first. He also gave his opinion of the present condition of the 75 Metre band.

The President then told about a letter he had received from Mr. Alex Reid, Canadian General Manager of the A.R.R.L. in regard to more 'phone frequencies in the 75 Metre band.

Les Harris read a letter he had received through Harry Rayner from VE3JT in Toronto in reference to the all-Canadian Trunk Line, and especially with the Lakehead portion of the line.

The general opinion was that it was impossible to contact Toronto or Winnipeg consistently on the 80 Metre band but that it might be possible to do this on 40 Metres.

It was moved by Cec. Partington that the secretary get in touch with VE4AG in Winnipeg to get more information and tell him about our difficulties. This was seconded by Bert Barley and carried.

Dr. Quakenbush then told about his early experiences in radio and thanked the amateurs who assisted to make the relay from the Wesley Choir at the Chicago World's Fair such a success.

C. MacDonald also spoke a few words, which was followed by an interesting talk by J. Murie, representative for the Canadian General Electric Company and the showing of some films by Bert Barley.

The meeting then finished off with a general discussion and rag-chew by all present.

The following were present:

P.J. O'Shea,	A. Duncan,	A. Reesor,
